

§ 136-89.198. Authority to toll existing interstate highways.

(a) General. – Notwithstanding any other provision of this Article, the Authority may collect tolls on any existing interstate highway for which the United States Department of Transportation has granted permission by permit, or any other lawful means, to do so. The revenue generated from the collected tolls shall be used by the Authority to repair and maintain the interstate on which the tolls were collected. These revenues shall not be used to repair, maintain, or upgrade any State primary or secondary road adjacent to or connected with the interstate highways.

(b) Method. – The Authority shall establish toll locations on the permitted interstate highway in accordance with federal guidelines. Toll locations shall be erected at or near the borders of the State and at such other locations that are not impracticable, unfeasible, or that would result in an unsafe or hazardous condition.

(c) Severability. – If any provision of this section or its application is held invalid, the invalidity does not affect other provisions or applications of this section that can be given effect without the invalid provisions or application, and to this end the provisions of this section are severable. (2005-276, s. 28.21(b).)
